

## Saved Searches

## Saved Searches

Saved searches are another feature reserved for registered users, and the feature retains in memory the recent history of searches by the registered user. Saved searches can be repeated by simply clicking the link within the list.

The screenshot displays the 'CONTRACTS' search interface. On the left, there are several search filters: 'FULL TEXT SEARCH' with a text input containing 'tr', 'STATE' with a dropdown arrow, 'COUNCIL NUMBER', 'LOCAL NUMBER', 'CHAPTER', 'EMPLOYER NAME', 'EFFECTIVE DATE' with a dropdown arrow, and 'EXPIRATION DATE' with a dropdown arrow. A green 'SEARCH' button and a grey 'INDEX' button are positioned above the filters. On the right, a 'Search Hints' panel is visible, featuring a 'Search History' tab and a 'Word Index' tab. The 'Search History' list includes items such as 'LOCAL NUMBER: 257', 'Full Text Search: traffic', 'Full Text Search: just cause near termination', 'Full Text Search: just cause near termin\*', 'Employer Type: PRIVATE COMPANY', 'Full Text Search: plumber', 'Employer Type: FEDERAL GOVERNMENT', and 'Employer Type: COURTS'. Two red callout boxes provide instructions: one points to the search history list with the text 'These saved searches can be repeated by simply clicking the relevant search history.', and another points to the 'FULL TEXT SEARCH' input with the text 'Note that the field filter that was searched is also recorded.'
